

Bachelor of Science (Hons) in Internet Computing (Full Time)

Year	Semester	Module Code	Module Title
I	I	LG1405*	Melayu Islam Beraja
		LG1401*	Fundamental of Effective Communication
		CC1102*	Computational Mathematics
		CI1102	Fundamentals of Information Systems
		CI1103	Programming I
	2	CI1511	Ethics and Innovation in Information Technology
		CI1105	Systems Analysis and Design
		CI1106	Programming II
		CI1207	Introduction to Multimedia and the Internet
		CI1231	Fundamentals of Data Analytics
		LG1402*	Professional Communication
II	3	CI2109	Programming III
		CI2110	Database Systems Design and Implementation
		CN2202*	Data and Computer Networking
		CI2212	Human Computer Interaction
	4	CI2213	Internet Technologies
		CI2214	Web Development 1
		CN2242*	Computer Security Fundamentals

		CN2241*	People and Security
III EXPERIENCE PLUS	5	CI3517	Research Methodology
		BE3251*	Technopreneurship
		Elective*	Non-Programme Module
		CG3501	Computing Group Project
	6	CI3119	Work Placement
IV FINAL YEAR	7	CI4220	IT Project Management
		CI4221	Web Development 2
		CI4222	Interactive Content Production
		CI4223	Mobile Application Development
	8	CI4232	Web Information Retrieval
		CI4226	Final Year Project

* Modules offered by other Programme Area
