Applications are now invited for the posts of Lecturer/Assistant Professor/Senior Assistant Professor/Associate Professor in Agrotechnology at the School of Applied Sciences and Mathematics.

JOB REQUIREMENTS

Applicants must have at least an upper second-class bachelor’s degree (with honours), a master’s degree (preferably Distinction), and a PhD in Agrotechnology or other related fields from a recognised university.

A minimum working experience of at least 3 years for the post of Lecturer; 5 years for the post of Assistant Professor for PT2 salary scale or holding the post of Assistant Professor or similar for considerable years with having held management position such as Dean/Deputy Dean or Head/Assistant Head of Department for salary scale PT2A; 7 years in the post of Assistant Professor on salary scale PT2 for Senior Assistant Professor or holding the post of Assistant Professor on a salary scale PT2A for at least 4 years for Senior Assistant Professor with a combination of teaching and industry experience is desirable.

Holding an equivalent position of Associate Professor or Senior Assistant Professor on a PT3 salary scale for at least three years while satisfying the KPIs for teaching, research and publishing, administration, and community service. A candidate should possess a strong record of research, publications, and teaching, as well as a developing reputation in the area of specialisation. The candidate should have held a managerial role, such as Faculty Dean or Deputy Dean. The candidate should also have experience supervising Master’s degree students.

The applicants must be able to demonstrate an outstanding track record of research output and teaching excellence. Those with suitable professional qualifications and/or industry experience would be advantageous.

The ability to teach within the scope of Agrotechnology programme, and have experience with postgraduate teaching. Those with a research background or any interests in the automation of agricultural processes, precision agriculture, smart farming, intelligent systems for measurement and monitoring, and other related subjects would be looked into favourably. The applicants should be prepared to oversee graduate and undergraduate research.

The successful applicant is expected to be qualified to design and teach courses in Agrotechnology and peripheral areas, at the undergraduate and postgraduate levels, and provide pertinent materials in the aforementioned fields. Active participation in the activities of the School and the University including research, seminar, and administration. The successful applicant is expected to to take a leading role in research within these areas.
