PETIKAN TITAH

Beta, dalam majlis yang permai ini mengambil maklum, bahawa UTB buat julung kalinya akan menganugerahkan ijazah kedoktoran atau PhD. Ini menunjukkan UTB semakin meningkat matang dalam bidang penyelidikan dan pasca ijazah.

Beta pernah menyentuh mengenai peranan UTB sebagai penyumbang kepada perkembangan ilmu pengetahuan serta berupaya untuk menyelesaikan isu-isu kontemporari melalui usaha-usaha penyelidikan.

Sehubungan itu, Beta menyambut baik mengenai kerjasama penyelidikan kejuruteraan bertaraf dunia bersama Brunei Shell Petroleum Sdn Bhd (BSP), Imperial College (UK) dan University of New South Wales (Australia). Projek berkenaan dijangka akan menyelesaikan salah satu cabaran teknikal paling mahal di Negara Brunei Darussalam, iaitu isu pasir dalam pengeluaran hidrokarbon.

Projek ini juga akan menawarkan biasiswa kepada pelajar dan menyediakan pekerjaan tempatan kepada para graduan UTB.

Senior Librarian
Universiti Teknologi Brunei Library

Welcome to the 2nd issue of Librarypedia, a trimonthly online publication of library news and events. We would also like to welcome the new students of the 2021/2022 intake made up of Undergraduate Degree programmes, Taught Masters and Graduate Research students.

In this issue we will highlight you mainly on the types of library collections, events and updates around the library. Under The Collection section, some might still be wondering what are the resources that UTB provide to its readers. Hence do read on and you will find the variety of interesting information which are very useful and will satisfy your needs. The library offers information in both print format as well as online. The online databases that we subscribed yearly for many years are Science Direct (journals and eBooks) and Scopus from Elsevier. Recently we also introduced our digital collection which are links to many of the online resources provided from the government agencies. All of these online resources are available from the UTB library website.

The Around the Library section displays happenings and news that had taken place in the past few months at the library. Our intention is to share with readers the kind of activities that we do apart from providing the library services. We organise trainings for librarians inside and outside UTB to facilitate library knowledge whenever there are needs and demands.

Despite the COVID-19 situation, we invite all members of our university community to visit us at the library website in order to earn more about our services. As the library is currently closed until such time, we are still reachable via our email and contact number as given towards the end of this newsletter.

We hope once this pandemic is over, everything will be back to normal and we hope to see you in the library soon.

Stay Safe, Stay Healthy.
